LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to identify electrical computer equipment and explain that an adult handles plugs and power connections. They will also learn to identify a screen, speaker and printer as output devices and describe what each produces. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask pupils to name an electrical computer device and describe a safe action when it needs power. Ask each pupil to name an output device and say what comes out of it. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	31 August 2026	By the end of this lesson, students will be able to identify electrical computer equipment and explain that an adult handles plugs and power connections.	**H:** Show a laptop, a battery-powered toy and a paper notebook. **ID:** Introduce Unit 1 Our computers. Explain that computers need electrical power, from a battery or a power supply. **WD:** Identify power symbols on pictures and model asking an adult when a battery is low; do not let pupils handle plugs or sockets. **YD:** Pupils sort pictures into uses electricity and does not use electricity, then identify two computer examples. **C:** Ask pupils to name an electrical computer device and describe a safe action when it needs power.	**Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing. **Extension:** Ask pupils to compare two suitable choices and explain which is more useful for a particular task.
2	3 September 2026	By the end of this lesson, students will be able to identify a screen, speaker and printer as output devices and describe what each	**H:** Play a short sound and display a picture. Ask how the computer shares information with us. **ID:** Explain that output is	**Support:** Use labelled device pictures, a word bank and a paired demonstration. MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 2 printed pages 4-9
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared picture cards, vocabulary prompts or task sheet
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
