LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to choose a suitable computer task and explain one way it helps a person. They will also learn to identify a task a computer cannot complete alone and explain where people are needed. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask pupils to explain a choice using the task and the device's useful feature. Listen for a realistic limit rather than the claim that computers can do everything. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	14 September 2026	By the end of this lesson, students will be able to choose a suitable computer task and explain one way it helps a person.	**H:** Compare drawing a poster, counting shop items and carrying a heavy box. **ID:** Discuss how computers help with creating, storing, calculating and communicating; people choose what to do. **WD:** Choose a computer to write an invitation and explain why its keyboard and screen are useful. **YD:** Pupils match everyday task cards to a useful device and draw one example of a computer helping someone. **C:** Ask pupils to explain a choice using the task and the device's useful feature.	**Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing. **Extension:** Ask pupils to compare two suitable choices and explain which is more useful for a particular task.
2	17 September 2026	By the end of this lesson, students will be able to identify a task a computer cannot complete alone and	**H:** Ask whether a screen can tidy our classroom or know that a friend needs a hug.	**Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing.

		explain where people are needed.	**ID:** Explain that computers have limits and need suitable instructions, information and human help. **WD:** Compare checking a typed sum with comforting a friend; discuss why a person must still make caring decisions. **YD:** Pairs sort helps with and cannot do alone cards, then explain one task that needs a person. **C:** Listen for a realistic limit rather than the claim that computers can do everything.	**Extension:** Ask pupils to compare two suitable choices and explain which is more useful for a particular task.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 2 printed pages 14-17
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared picture cards, vocabulary prompts or task sheet
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
