LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to sort familiar input and output devices and explain their roles. They will also learn to select appropriate technology for two everyday tasks and justify a choice. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check one correct input device, one correct output device and a spoken explanation from each pupil. Ask pupils to justify one choice and identify one action that requires adult help. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	21 September 2026	By the end of this lesson, students will be able to sort familiar input and output devices and explain their roles.	**H:** Revisit one keyboard card and one speaker card without naming the groups. **ID:** Review input goes into a computer and output comes from it, using the Unit 1 picture vocabulary. **WD:** Model a keyboard-to-computer-to-screen sequence and explain the direction of information. **YD:** Pairs sort a mixed set, build two input-process-output picture chains and explain their choices. **C:** Check one correct input device, one correct output device and a spoken explanation from each pupil.	**Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing. **Extension:** Ask pupils to compare two suitable choices and explain which is more useful for a particular task.
2	24 September 2026	By the end of this lesson, students will be able to select appropriate technology for two everyday tasks and justify a choice.	**H:** Present a class invitation that needs to be typed and printed. **ID:** Review input, output, electricity and useful connections as choices for a real task.	**Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing. **Extension:** Ask pupils to compare two suitable choices

			WD: Think aloud while choosing a keyboard, screen and printer for the invitation. **YD:** Pupils design a simple computer station for an invitation, a song or a picture and label the useful devices. **C:** Ask pupils to justify one choice and identify one action that requires adult help.	and explain which is more useful for a particular task.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 2 printed pages 6-17
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared picture cards, vocabulary prompts or task sheet
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
