## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will learn to demonstrate the main Unit 1 ideas through a short oral and practical learning check. They will also learn to correct a misunderstanding about devices and apply a safe computer routine independently. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

### End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Record secure, developing or needs support for each outcome and choose a focus for the next lesson. Ask pupils to explain the correction and demonstrate the selected routine without copying a partner. Note pupils who need further guided practice.

## LESSON SLOTS - MONDAY AND THURSDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| 1 | 28 September 2026 | By the end of this lesson, students will be able to demonstrate the main Unit 1 ideas through a short oral and practical learning check. | **H:** Show the Unit 1 word and picture bank and ask pupils to recall one useful idea.<br><br>**ID:** Explain the check: identify electrical equipment, sort input and output, and choose technology for a task.<br><br>**WD:** Model how to explain a choice using an unrelated example without giving answers to the check.<br><br>**YD:** Pupils complete the picture check and explain one useful task and one limitation of a computer.<br><br>**C:** Record secure, developing or needs support for each outcome and choose a focus for the next lesson. | **Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing.<br><br>**Extension:** Ask pupils to compare two suitable choices and explain which is more useful for a particular task. |
| 2 | 1 October 2026 | By the end of this lesson, students will be able to correct a misunderstanding about devices and apply a safe | **H:** Use anonymous examples from the learning check to ask what could be improved. | **Support:** Use labelled device pictures, a word bank and a paired demonstration. Accept pointing and an oral explanation before writing. |

## MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 2 printed pages 4-18
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared picture cards, vocabulary prompts or task sheet
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- Prepared examples and the lesson success checklist

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
