LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to describe the internet as connections between computers and distinguish a website from the device showing it. They will also learn to choose useful search words and select an appropriate result with teacher guidance. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask pupils to explain what is connected and give one useful example of information shared online. Ask pupils to name their keywords and explain why one result matches the task. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	26 October 2026	By the end of this lesson, students will be able to describe the internet as connections between computers and distinguish a website from the device showing it.	**H:** Ask how a restaurant's menu could appear on computers in different places. **ID:** Introduce Unit 2 The secret restaurant. Explain that connected computers can share information over the internet. **WD:** Open a teacher-selected restaurant page and point to the website on the screen, keeping device and content distinct. **YD:** Pupils draw two connected computers sharing a menu and identify information the website gives them. **C:** Ask pupils to explain what is connected and give one useful example of information shared online.	**Support:** Use only teacher-selected pages or printed screenshots. Provide a picture checklist and support reading, saving and recording sources. **Extension:** Ask pupils to justify a choice using two checklist points and explain how to keep a useful source record.
2	29 October 2026	By the end of this lesson, students will be able to choose useful search words and select an	**H:** Compare searching for food with searching for fruit salad pictures.	**Support:** Use only teacher-selected pages or printed screenshots. Provide a picture checklist and support reading,

		appropriate result with teacher guidance.	**ID:** Explain that clear words help a search tool find relevant results; pupils use only the teacher-prepared search route. **WD:** Model entering two or three useful words and comparing results without opening adverts or unfamiliar links. **YD:** Pairs choose keywords for a restaurant-picture task and use the approved results or a printed search simulation. **C:** Ask pupils to name their keywords and explain why one result matches the task.	saving and recording sources. **Extension:** Ask pupils to justify a choice using two checklist points and explain how to keep a useful source record.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 2 printed pages 20-25
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared picture cards, vocabulary prompts or task sheet
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
