LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will demonstrate the knowledge and practical skills taught in start events, movement, forever loops and the small Frog Hop Game developed so far. The two lessons provide independent school assessment tasks and opportunities to show a practical skill and explain a choice.

End-of-Week Assessment/Check: How will you know they got it?

Assess the prepared knowledge and practical tasks against the taught outcomes. Record correct responses, independent actions, explanations and any access support provided. Use the results to identify specific skills for follow-up.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	22 March 2027	By the end of this lesson, students will be able to demonstrate the taught knowledge and safe routines in a school assessment covering start events, movement, forever loops and the small Frog Hop Game developed so far.	**H:** Welcome pupils calmly and check that equipment and prepared papers are ready. **ID:** Explain the familiar picture, oral or written task format and the expectation to work independently; apply agreed access arrangements. **WD:** Demonstrate only how to record an answer using an unrelated example. Do not rehearse assessed answers. **YD:** Pupils complete the prepared knowledge and scenario tasks. Record assistance and collect work without teaching new content. **C:** Check that work is complete and note gaps for later feedback; keep the assessment conditions consistent.	**Support:** Apply the school's agreed access arrangements. Read task instructions without giving answers and record any adult assistance. **Extension:** Use the planned independent explanation task after core questions; do not introduce new content during assessment.
2	25 March 2027	By the end of this lesson, students will be able to apply the taught skills	**H:** Set out the prepared practical stations or saved starter files and review the	**Support:** Apply the school's agreed access arrangements. Read task instructions without

		independently in a practical assessment of start events, movement, forever loops and the small Frog Hop Game developed so far.	task routine. **ID:** Explain the practical criteria and how pupils should request technical help without receiving content answers. **WD:** Show how to open the prepared task and save the completed file using an unrelated example. **YD:** Pupils complete the practical task and explain one choice. For programming, demonstrate a familiar game; for technology or safety, use a device or scenario task. **C:** Save or collect evidence, record independence against the criteria and identify skills requiring follow-up.	giving answers and record any adult assistance. **Extension:** Use the planned independent explanation task after core questions; do not introduce new content during assessment.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 2 printed pages 52-63
- Teacher computer and display
- Scratch 3, school-managed access or offline editor, and a class save folder
- Prepared school assessment tasks covering the stated outcomes
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- Teacher observation checklist and school access arrangements

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
