## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will learn to recognise a familiar AI example and explain that not every computer program uses AI. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

### End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask pupils for one AI example and one reason a computer program might not be AI. Note pupils who need further guided practice.

## LESSON SLOTS - MONDAY AND THURSDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| 1 | 17 May 2027 | By the end of this lesson, students will be able to recognise a familiar AI example and explain that not every computer program uses AI. | **H:** Compare an ordinary timer with a teacher-described system that recognises pictures.<br><br>**ID:** Explain that some AI systems learn patterns from examples to make guesses. A timer follows a fixed set of instructions and does not learn from examples.<br><br>**WD:** Use picture cards to compare a fixed timer, a simple Scratch sequence and a picture-recognition example; avoid claiming all smart devices use AI.<br><br>**YD:** Pairs sort teacher-provided examples into AI example, fixed instructions or need more information and explain a choice.<br><br>**C:** Ask pupils for one AI example and one reason a computer program might not be AI. | **Support:** Use fictional examples, concrete pictures and adult reading. Accept a spoken or drawn explanation and keep all demonstrations teacher-led.<br><br>**Extension:** Ask pupils to suggest a difficult example and explain why a person should check the result. |

## MATERIALS NEEDED FOR THE WEEK

- Teacher-designed AI activities using fictional examples and non-personal pictures
- Teacher computer and display
- Printed animal or toy picture cards, prepared labels and example predictions
- AI4K12 K-2 guidance: https://ai4k12.org/gradeband-progression-charts/
- Whiteboard and markers
- Student notebooks, pencils and colouring materials
- UNICEF AI and children guidance: https://www.unicef.org/innocenti/reports/policy-guidance-ai-children

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
