LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to distinguish input and output devices and select them for a task. They will also learn to choose peripherals that meet a user's access needs. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check correct classifications and one complete data path. Check an appropriate choice, a reason linked to need and one limitation. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	31 August 2026	By the end of this lesson, students will be able to distinguish input and output devices and select them for a task.	**H:** Ask how a barcode reaches a shop computer and how the customer sees the total. **ID:** Introduce input, output, sensors and devices with both roles. **WD:** Trace a checkout transaction, separating touchscreen input from its displayed output. **YD:** Students classify peripherals and annotate the input and output of a library or weather system. **C:** Check correct classifications and one complete data path.	**Support:** Provide labelled diagrams, vocabulary and a partly completed comparison table. Model one decision before independent practice. **Extension:** Compare an alternative specification or tool and explain when the recommendation would change.
2	2 September 2026	By the end of this lesson, students will be able to choose peripherals that meet a user's access needs.	**H:** Present a fictional learner who finds a standard mouse difficult to use. **ID:** Introduce alternative input devices, enlarged displays, speech input and audio output. **WD:** Compare a trackball and adapted keyboard for	**Support:** Provide labelled diagrams, vocabulary and a partly completed comparison table. Model one decision before independent practice. **Extension:** Compare an alternative specification or tool and explain when the recommendation would change.

			a supplied profile, noting benefits and limitations. **YD:** Pairs recommend peripherals for two fictional user profiles and explain how they support the task. **C:** Check an appropriate choice, a reason linked to need and one limitation.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 22-37
- Teacher computer and display
- Classroom computers, school-approved applications and class save folder
- Fictional user briefs, specification sheets and device or network cards
- Whiteboard and markers
- Student notebooks, task sheets and requirements checklists
- Prepared examples and a success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
