LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to compare storage media and explain a recoverable backup arrangement. They will also learn to organise files and demonstrate a reliable save and restore routine. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check suitable media and a backup that survives loss of the working copy. Check the structure, file names, reopened contents and successful recovery. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	7 September 2026	By the end of this lesson, students will be able to compare storage media and explain a recoverable backup arrangement.	**H:** Ask whether two copies on the same failed laptop protect a file. **ID:** Explain magnetic, optical and solid-state storage, capacity, portability and durability. **WD:** Compare media for video editing and document transfer; demonstrate a dated backup and restore of a harmless file. **YD:** Students recommend storage for three scenarios and draft a backup plan with frequency, location and restore checks. **C:** Check suitable media and a backup that survives loss of the working copy.	**Support:** Provide labelled diagrams, vocabulary and a partly completed comparison table. Model one decision before independent practice. **Extension:** Compare an alternative specification or tool and explain when the recommendation would change.
2	9 September 2026	By the end of this lesson, students will be able to organise files and demonstrate a reliable save and restore routine.	**H:** Show a folder containing several files named final. **ID:** Explain meaningful names, folders, versions, file types and authorised	**Support:** Provide labelled diagrams, vocabulary and a partly completed comparison table. Model one decision before independent practice. **Extension:** Compare an

			storage locations. **WD:** Create sources, drafts and final folders; save, rename and restore a sample without deleting the original. **YD:** Students organise a supplied file pack, reopen a named version and verify a separate backup copy. **C:** Check the structure, file names, reopened contents and successful recovery.	alternative specification or tool and explain when the recommendation would change.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 38-44 and 202-207
- Teacher computer and display
- Classroom computers, school-approved applications and class save folder
- Harmless sample file pack, authorised backup folder and restore checklist
- Whiteboard and markers
- Student notebooks, task sheets and requirements checklists
- Prepared examples and a success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
