LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will practise the taught knowledge and skills in Unit 1 digital devices, peripherals, storage, software, memory and processors, with introductory digital communication. They will complete a mock assessment, review feedback and correct misunderstandings before assessment week.

End-of-Week Assessment/Check: How will you know they got it?

Compare the mock task with each pupil's corrected work and similar follow-up task. Check that pupils can explain a correction and apply it independently. Record any outcome that needs another guided example.

LESSON SLOTS - MONDAY AND WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	5 October 2026	By the end of this lesson, students will be able to complete a mock assessment of digital devices and introductory communication and identify a practice target.	**H:** Retrieve familiar vocabulary using devices, diagrams or short scenarios. **ID:** Explain the taught outcomes and feedback lesson before assessment week. **WD:** Model an unrelated response showing evidence and a reason. **YD:** Students classify devices and software, explain memory and storage, and recommend a specification and connection for a user brief and outline how they would organise a file pack, verify a recoverable copy and explain the chosen application. Review results and select one target. **C:** Collect mock evidence and identify misconceptions for the next lesson.	**Support:** Use familiar task formats and agreed access support. Target misconceptions during the feedback lesson. **Extension:** Apply a corrected idea to a different brief and explain the reasoning.
2	7 October 2026	By the end of this lesson, students will be able to correct a misconception	**H:** Show an anonymous error and invite a respectful correction.	**Support:** Use familiar task formats and agreed access support. Target

		about digital devices and introductory communication and apply the correction to a new task.	**ID:** Revisit the difficulty with familiar examples and criteria. **WD:** Model a correction and explain why it meets the brief. **YD:** Students correct their responses, then organise a file pack, verify a recoverable copy and explain the chosen application in a similar follow-up task. **C:** Ask students to explain the correction and record who needs more guided practice.	misconceptions during the feedback lesson. **Extension:** Apply a corrected idea to a different brief and explain the reasoning.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 4-63, 66-78 and 202-207
- Teacher computer and display
- Classroom computers, school-approved applications and class save folder
- Prepared internal school mock assessment tasks covering the taught outcomes
- Whiteboard and markers
- Student notebooks, task sheets and requirements checklists
- Teacher outcome checklist and agreed school access arrangements

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
