LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will demonstrate the knowledge and practical skills taught in Unit 1 digital devices, peripherals, storage, software, memory and processors, with introductory digital communication. The two lessons provide independent school assessment tasks and opportunities to show a practical skill and explain a choice.

End-of-Week Assessment/Check: How will you know they got it?

Assess the prepared knowledge and practical tasks against the taught outcomes. Record correct responses, independent actions, explanations and any access support provided. Use the results to identify specific skills for follow-up.

LESSON SLOTS - MONDAY AND WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	12 October 2026	By the end of this lesson, students will be able to complete an independent internal school assessment of digital devices and introductory communication.	**H:** Welcome students and check the prepared papers, files and equipment. **ID:** Explain familiar task formats, criteria and access arrangements; students work independently. **WD:** Demonstrate only how to record or save answers using an unrelated example. **YD:** Students classify devices and software, explain memory and storage, and recommend a specification and connection for a user brief. Collect evidence and record any support. **C:** Check saved or collected work and record independence against the criteria for later feedback.	**Support:** Apply agreed school access arrangements without giving content answers. Record any assistance. **Extension:** Use the prepared independent evaluation question after core tasks, covering only taught content.
2	14 October 2026	By the end of this lesson, students will be able to demonstrate and justify the taught practical skills in digital devices and	**H:** Welcome students and check the prepared papers, files and equipment.	**Support:** Apply agreed school access arrangements without giving content answers. Record any assistance.

		introductory communication.	**ID:** Explain familiar task formats, criteria and access arrangements; students work independently. **WD:** Demonstrate only how to record or save answers using an unrelated example. **YD:** Students organise a file pack, verify a recoverable copy and explain the chosen application. Collect evidence and record any support. **C:** Check saved or collected work and record independence against the criteria for later feedback.	**Extension:** Use the prepared independent evaluation question after core tasks, covering only taught content.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 4-63, 66-78 and 202-207
- Teacher computer and display
- Classroom computers, school-approved applications and class save folder
- Prepared internal school assessment tasks covering the taught outcomes
- Whiteboard and markers
- Student notebooks, task sheets and requirements checklists
- Teacher outcome checklist and agreed school access arrangements

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
