SIAMIS ICT Weekly Lesson Plan

Teacher: Ray Joshua Balingkit | Year 10–11 | Term 1 | Week 1

Year 10 course sequence: Units 1–3. Two 45-minute lessons. Year 11 progression: Units 4–6.

Lesson overview

This week covers course introduction and digital devices and mainframe, desktop and laptop computers.

Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 4-6

End of week assessment

Check accurate terminology, explanations and application through the relevant book activities and questions. Record misconceptions and use the next feedback or consolidation session for corrections. Assess only content already taught.

Lesson 1

Course introduction and digital devices

Date: 24 August 2026 | Duration: 45 minutes

Learning objective

By the end of this lesson, students will be able to explain and apply course introduction and digital devices, using accurate textbook terminology and a justified example.

Lesson flow

Hook 5 minutes

Use a short scenario, image or retrieval question to introduce course introduction and digital devices.

Introduce 8 minutes

Teach course introduction and digital devices from printed pages 4-6; include the relevant definitions, diagrams and examples.

We do 10 minutes

Work through a textbook example or comparison for course introduction and digital devices; explain each decision and check understanding.

You do 17 minutes

Complete the relevant textbook activities and questions for course introduction and digital devices. Use a practical demonstration or scenario where appropriate; finish remaining practice as homework.

Check 5 minutes

Explain one key idea about course introduction and digital devices and justify an answer; record misconceptions for the next lesson.

Differentiation

Support: Provide labelled diagrams, vocabulary, a structured response frame and a worked example. Apply agreed access arrangements during independent assessment without supplying answers.

Extension: Justify an alternative solution, explain a limitation or apply the same concept to a new scenario using evidence.

Lesson 2

Mainframe, desktop and laptop computers

Date: 26 August 2026 | Duration: 45 minutes

Learning objective

By the end of this lesson, students will be able to explain and apply mainframe, desktop and laptop computers, using accurate textbook terminology and a justified example.

Lesson flow

Hook 5 minutes

Use a short scenario, image or retrieval question to introduce mainframe, desktop and laptop computers.

Introduce 8 minutes

Teach mainframe, desktop and laptop computers from printed pages 4-6; include the relevant definitions, diagrams and examples.

We do 10 minutes

Work through a textbook example or comparison for mainframe, desktop and laptop computers; explain each decision and check understanding.

You do 17 minutes

Complete the relevant textbook activities and questions for mainframe, desktop and laptop computers. Use a practical demonstration or scenario where appropriate; finish remaining practice as homework.
