SIAMIS ICT Weekly Lesson Plan

Teacher: Ray Joshua Balingkit | Year 10–11 | Term 2 | Week 2

Year 10 course sequence: Units 1–3. Two 45-minute lessons. Year 11 progression: Units 4–6.

Lesson overview

This week covers network requirements and operating systems and iP addresses, MAC addresses and network interfaces.

Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 79-83

End of week assessment

Check accurate terminology, explanations and application through the relevant book activities and questions. Record misconceptions and use the next feedback or consolidation session for corrections. Assess only content already taught.

Lesson 1

Network requirements and operating systems

Date: 11 January 2027 | Duration: 45 minutes

Learning objective

By the end of this lesson, students will be able to explain and apply network requirements and operating systems, using accurate textbook terminology and a justified example.

Lesson flow

Hook 5 minutes

Use a short scenario, image or retrieval question to introduce network requirements and operating systems.

Introduce 8 minutes

Teach network requirements and operating systems from printed pages 79-83; include the relevant definitions, diagrams and examples.

We do 10 minutes

Work through a textbook example or comparison for network requirements and operating systems; explain each decision and check understanding.

You do 17 minutes

Complete the relevant textbook activities and questions for network requirements and operating systems. Use a practical demonstration or scenario where appropriate; finish remaining practice as homework.

Check 5 minutes

Explain one key idea about network requirements and operating systems and justify an answer; record misconceptions for the next lesson.

Differentiation

Support: Provide labelled diagrams, vocabulary, a structured response frame and a worked example. Apply agreed access arrangements during independent assessment without supplying answers.

Extension: Justify an alternative solution, explain a limitation or apply the same concept to a new scenario using evidence.

Lesson 2

IP addresses, MAC addresses and network interfaces

Date: 13 January 2027 | Duration: 45 minutes

Learning objective

By the end of this lesson, students will be able to explain and apply iP addresses, MAC addresses and network interfaces, using accurate textbook terminology and a justified example.

Lesson flow

Hook 5 minutes

Use a short scenario, image or retrieval question to introduce iP addresses, MAC addresses and network interfaces.
