SIAMIS ICT Weekly Lesson Plan

Teacher: Ray Joshua Balingkit | Year 10–11 | Term 3 | Week 5

Year 10 course sequence: Units 1–3. Two 45-minute lessons. Year 11 progression: Units 4–6.

Lesson overview

This week covers data protection, copyright and Creative Commons and monitoring movements and communications.

Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 147-152

End of week assessment

Check accurate terminology, explanations and application through the relevant book activities and questions. Record misconceptions and use the next feedback or consolidation session for corrections. Assess only content already taught.

Lesson 1

Data protection, copyright and Creative Commons

Date: 17 May 2027 | Duration: 45 minutes

Learning objective

By the end of this lesson, students will be able to explain and apply data protection, copyright and Creative Commons, using accurate textbook terminology and a justified example.

Lesson flow

Hook 5 minutes

Use a short scenario, image or retrieval question to introduce data protection, copyright and Creative Commons.

Introduce 8 minutes

Teach data protection, copyright and Creative Commons from printed pages 147-152; include the relevant definitions, diagrams and examples.

We do 10 minutes

Work through a textbook example or comparison for data protection, copyright and Creative Commons; explain each decision and check understanding.

You do 17 minutes

Complete the relevant textbook activities and questions for data protection, copyright and Creative Commons. Use a practical demonstration or scenario where appropriate; finish remaining practice as homework.

Check 5 minutes

Explain one key idea about data protection, copyright and Creative Commons and justify an answer; record misconceptions for the next lesson.

Differentiation

Support: Provide labelled diagrams, vocabulary, a structured response frame and a worked example. Apply agreed access arrangements during independent assessment without supplying answers.

Extension: Justify an alternative solution, explain a limitation or apply the same concept to a new scenario using evidence.

Lesson 2

Monitoring movements and communications

Date: 19 May 2027 | Duration: 45 minutes

Learning objective

By the end of this lesson, students will be able to explain and apply monitoring movements and communications, using accurate textbook terminology and a justified example.

Lesson flow

Hook 5 minutes

Use a short scenario, image or retrieval question to introduce monitoring movements and communications.

Introduce 8 minutes

Teach monitoring movements and communications from printed pages 147-152; include the relevant definitions, diagrams and examples.

We do 10 minutes

Work through a textbook example or comparison for monitoring movements and communications; explain each decision and check understanding.

You do 17 minutes

Complete the relevant textbook activities and questions for monitoring movements and communications. Use a practical demonstration or scenario where appropriate; finish remaining practice as homework.

Check 5 minutes

Explain one key idea about monitoring movements and communications and justify an answer; record misconceptions for the next lesson.

Differentiation

Support: Provide labelled diagrams, vocabulary, a structured response frame and a worked example. Apply agreed access arrangements during independent assessment without supplying answers.

Extension: Justify an alternative solution, explain a limitation or apply the same concept to a new scenario using evidence.

Materials

Teacher computer and display

School-approved applications, class save folder and fictional scenarios

Relevant textbook diagrams, activities and chapter questions

Student notebooks and a teacher assessment checklist

Teacher-verified current legal context: distinguish historical textbook examples from current law.

Teacher reflection

What worked well? _____

What needs reteaching or adjustment? _____
