LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to explain the classroom rules and demonstrate respectful participation in computing lessons. They will also learn to save, organise and reopen a named file while following equipment-care routines. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask each pupil to demonstrate a routine and explain how it supports learning. Check the file name, location, reopened content and correct equipment-care routine. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND TUESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	24 August 2026	By the end of this lesson, students will be able to explain the classroom rules and demonstrate respectful participation in computing lessons.	**H:** Ask pupils which routines help everyone learn when sharing computers. **ID:** Introduce lesson expectations, listening signals, turn-taking, kind feedback and the agreed help route. **WD:** Model stopping keyboard use for instructions and explaining a pretend problem calmly. **YD:** Pairs practise the arrival and help routines and write three rules with reasons. **C:** Ask each pupil to demonstrate a routine and explain how it supports learning.	**Support:** Provide a visual routine checklist and a paired demonstration. Guide pupils to the class folder and accept an oral explanation of a rule. **Extension:** Ask pupils to improve a file name or suggest a helpful routine, explaining how it supports shared equipment or finding saved work.
2	25 August 2026	By the end of this lesson, students will be able to save, organise and reopen a named file while following equipment-care routines.	**H:** Display two folders and ask which makes a file easier to find. **ID:** Review safe handling, school-managed access, meaningful file names and keeping the class	**Support:** Provide a visual routine checklist and a paired demonstration. Guide pupils to the class folder and accept an oral explanation of a rule. **Extension:** Ask pupils to improve a file name or

			workspace tidy. **WD:** Create a short document, save it in a named class folder, close it and reopen it to check the contents. **YD:** Pupils write a computing goal, save and reopen the file and leave the station ready for the next user. **C:** Check the file name, location, reopened content and correct equipment-care routine.	suggest a helpful routine, explaining how it supports shared equipment or finding saved work.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Lower Secondary Computing Student Book 7 printed pages 3
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- School classroom rules, a visual equipment-care checklist and the file-saving guide
- Whiteboard and markers
- Student notebooks, pencils and task sheets
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
