LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to create an online-safety guide with practical advice and accurate source credits. They will also learn to apply the taught online-safety ideas to scenarios and explain responsible source use. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Assess the advice against the brief, check the source records and ask pupils to justify one protective action. Record secure outcomes and targets for mock assessment, including a correct reporting route and accurate attribution. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND TUESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	16 November 2026	By the end of this lesson, students will be able to create an online-safety guide with practical advice and accurate source credits.	**H:** Ask what a new Year 7 pupil needs to know before using school computers online. **ID:** Set a brief covering data privacy, suspicious messages, device protection, cyberbullying support and responsible content use. **WD:** Plan short advice sections, paraphrase a supplied fact and add a permitted image with its required attribution. **YD:** Pupils create and save a concise guide using approved sources, then peer-check the safety advice, clarity and credits. **C:** Assess the advice against the brief, check the source records and ask pupils to justify one protective action.	**Support:** Use fictional scenarios and teacher-approved sources. Provide a vocabulary bank, a reporting checklist and a citation frame; avoid personal disclosures. **Extension:** Ask pupils to justify an action for a less obvious scenario or improve a source record, explaining the privacy, safety or licence reason.
2	17 November 2026	By the end of this lesson, students will be able to apply the taught online-	**H:** Revisit the unit vocabulary through short scenario prompts.	**Support:** Use fictional scenarios and teacher-approved sources. Provide a

		safety ideas to scenarios and explain responsible source use.	**ID:** Explain the check: cookies, data sharing, phishing, protection, cyberbullying and content permission or credit. **WD:** Model giving an action and a reason for an unrelated scenario without revealing the check's answers. **YD:** Pupils complete the scenario check, review their guide and explain one content choice and source credit. **C:** Record secure outcomes and targets for mock assessment, including a correct reporting route and accurate attribution.	vocabulary bank, a reporting checklist and a citation frame; avoid personal disclosures. **Extension:** Ask pupils to justify an action for a less obvious scenario or improve a source record, explaining the privacy, safety or licence reason.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Lower Secondary Computing Student Book 7 printed pages 32-59
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Fictional online-safety scenarios, approved source cards and citation frames
- Whiteboard and markers
- Approved image pack with permission details and source-credit records
- Teacher reference: https://creativecommons.org/reusing-cc-licensed-content/

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
