LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will practise the taught knowledge and skills in Unit 2: data privacy, online threats, protection, cyberbullying and responsible content use. They will complete a mock assessment, review feedback and correct misunderstandings before assessment week.

End-of-Week Assessment/Check: How will you know they got it?

Compare the mock task with each pupil's corrected work and similar follow-up task. Check that pupils can explain a correction and apply it independently. Record any outcome that needs another guided example.

LESSON SLOTS - MONDAY AND TUESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	23 November 2026	By the end of this lesson, students will be able to complete a mock assessment of online safety and responsible content use and identify a practice target.	**H:** Invite pupils to recall the unit with familiar vocabulary, grids or scenario prompts. **ID:** Explain that the mock covers taught outcomes and is followed by feedback before assessment week. **WD:** Model the response format with an unrelated example and show how to give working or a reason. **YD:** Pupils explain data-sharing choices, recognise online threats and choose a reporting or protection action and review a saved safety guide, check a permitted image and show its source credit. Review results and select one specific practice target. **C:** Collect the mock evidence and identify common misconceptions for the next lesson.	**Support:** Provide familiar grids, vocabulary and task formats. Read instructions as needed without supplying answers, then target feedback after the independent attempt. **Extension:** Ask pupils to explain why their correction works and apply it to a different example.
2	24 November 2026	By the end of this lesson, students will be able to correct a misconception	**H:** Show an anonymous error from the mock and invite a specific, respectful	**Support:** Provide familiar grids, vocabulary and task formats. Read instructions as

		and improve a task about online safety and responsible content use.	suggestion. **ID:** Revisit the common error using the taught vocabulary and familiar success criteria. Check Loy Krathong arrangements and retain the review before assessment if the timetable changes. **WD:** Model a correction, explain why it works and verify it against the task or source. **YD:** Pupils correct their own work, then review a saved safety guide, check a permitted image and show its source credit in a similar follow-up task with targeted support. **C:** Ask pupils to explain their correction and record who needs a further guided example before assessment.	needed without supplying answers, then target feedback after the independent attempt. **Extension:** Ask pupils to explain why their correction works and apply it to a different example.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Lower Secondary Computing Student Book 7 printed pages 32-59
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared mock assessment tasks covering the stated outcomes
- Whiteboard and markers
- Approved image pack with permission details and source-credit records
- Teacher observation checklist and school access arrangements

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
