## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will examine how news language and news values influence which stories are selected and how they are presented. They will distinguish the shared facts of an event from the angle suggested by a headline or lead. Students will compare two teacher-prepared newspaper accounts of one fictional event, using precise evidence to explain differences in emphasis without making unsupported claims about intention.

### End-of-Week Assessment/Check: How will you know they got it?

Teacher questioning, class discussion, analysis of worked examples and the completed independent activities. Check that students use accurate terminology, select specific evidence and explain how a choice creates meaning or addresses an audience. Review the written, visual or practical work alongside its annotations, and use the final checks in both lessons to identify the next skill requiring practice.

### LESSON SLOTS - TUESDAY AND FRIDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| 1 | 10 November 2026 | By the end of this lesson, students will be able to explain how news language and news values influence the selection and presentation of a story. | **H:** Offer a set of fictional school-news summaries and ask students which should lead a school newspaper. Compare their choices and ask what makes a story seem important to that audience.<br><br>**ID:** Introduce news values as considerations that influence selection, such as relevance, scale, recency, conflict and human interest. Explain the functions of headlines, leads, quotation and attribution. Distinguish a reported fact from an opinion or unverified claim and avoid assuming that news selection is a complete record of events.<br><br>**WD:** Use a fictional report about a new school library to identify a headline, a lead and an attributed comment. Compare a neutral headline with a more evaluative version. Explain how word choice | **Support:** Provide a news-value glossary, a labelled article and a fact-and-opinion sorting task. Model how to justify one story choice before students rank the remaining examples and explain their own decisions.<br><br>**Extension:** Students compare the priorities of two different audiences and explain how the leading story might change. They identify information missing from the supplied report that a journalist would need to verify. |

| | | | | |
|---|---|---|---|---|
| | | | and emphasis can suggest an angle while the underlying event remains the same.<br><br>**YD:** Students rank the prepared story summaries for a defined audience and justify their first two choices using news values. They then rewrite one headline and lead in two styles, identifying which words change the emphasis and ensuring that the supplied facts are not altered.<br><br>**C:** Ask students to distinguish the event from the angle taken on it. Check that their news-value explanation considers the intended audience and that quotations or claims are attributed rather than presented as unsupported facts. | |
| 2 | 13 November 2026 | By the end of this lesson, students will be able to compare how two newspaper reports present the same event through language and selection. | **H:** Display two teacher-prepared headlines about the same fictional school event. Ask what each makes the reader notice first and whether either headline tells the whole story.<br><br>**ID:** Explain how to compare headline wording, image selection, lead information, quotation and prominence across two reports. Distinguish an observable difference from an assumption about a writer's intention. Discuss omission and emphasis while recognising that two short reports may differ for reasons that the available evidence cannot establish.<br><br>**WD:** Model a comparison of two fictional reports about a school garden opening. Identify a shared fact, a different emphasis and an attributed viewpoint. Write a | **Support:** Provide short paired reports, highlighted factual details and a comparison frame. Model a single headline comparison and allow students to rehearse an explanation orally before writing the independent response.<br><br>**Extension:** Students explain how an omitted viewpoint might affect the account and propose a question for further reporting. They evaluate which report gives a more complete account using the supplied evidence rather than personal agreement. |

| | | | | |
|---|---|---|---|---|
| | | | paragraph that refers to both reports and explains how a specific wording choice may shape the reader's impression.<br><br>**YD:** Students annotate the paired reports and complete a comparison grid. They write two paragraphs addressing the same feature in both texts, using precise language evidence. A partner checks the accuracy of the shared facts and highlights a claim that needs qualification or stronger support.<br><br>**C:** Ask students to explain one difference without claiming more than the texts support. Check that the analysis compares the same event, identifies evidence in both reports and distinguishes language choices from factual differences. | |

## MATERIALS NEEDED FOR THE WEEK

- GCSE Media Studies for AQA (Heinemann): Unit 3 Newspapers: Newspaper language, news values and audiences
- Teacher computer, display screen and speakers where audio is used
- Age-appropriate teacher-selected extracts or teacher-prepared fictional media texts
- Prepared analysis worksheet, evidence grid or production brief
- Paper, pencils, storyboard or design templates, and whiteboard markers
- Classroom computers and save folders; camera or approved image bank when required
- Lesson success criteria and teacher observation checklist

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
