LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to state two classroom rules and show how to ask the teacher for help. They will also learn to handle the mouse and keyboard gently and leave a safe workspace. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.
