LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to use safe routines and identify a useful computer task. They will also learn to take turns and choose a safe, courteous response during a shared task. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	21 September 2026	By the end of this lesson, students will be able to use safe routines and identify a useful computer task.	**H:** Ask pupils to recall one computer task and one safety rule. **ID:** Revisit the Unit 1 pictures and explain the practical stations: computer parts, safe sitting and useful tasks. **WD:** Complete one station aloud, connecting the chosen action to a rule. **YD:** Small groups rotate through the stations, naming parts, arranging a safe workspace and matching a task to a user. **C:** Use an observation checklist to note independent performance and support needed.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.
