LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to identify a web page and describe something it contains. They will also learn to use a teacher-supported search or prepared link to find information about an animal. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	26 October 2026	By the end of this lesson, students will be able to identify a web page and describe something it contains.	**H:** Display a teacher-selected rainforest page or the printed book example. **ID:** Use the Unit 2 introduction and pages 22-23 to explain that people create web pages and a browser shows them. **WD:** Open a prechecked page and point to its title, pictures and text. Explain that a picture alone is not proof that information is correct. **YD:** Pupils explore the selected page with adult guidance and draw or describe two things they notice. **C:** Each pupil points to a page feature and names its purpose.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.
2	29 October 2026	By the end of this lesson, students will be able to use a teacher-supported search or prepared link to find information about an animal.	**H:** Ask what words we could use to find a page about a tiger. **ID:** Use pages 24-25 to introduce a search box, a keyword and a search-	**Support:** Provide a prepared link and keyword card. Allow a partner to type while the pupil identifies the next step. **Extension:** Compare two simple keywords and say

			result link. Teacher checks the tool and results before pupils use them. **WD:** Type an animal keyword and choose a suitable prechecked result. Model asking before opening a new page. **YD:** Pairs use a prepared animal keyword or link to open an approved page and tell the teacher which animal it concerns. **C:** Check that pupils can identify the search box or result link and ask for help before opening unfamiliar content.	which better describes the animal being researched.

MATERIALS NEEDED FOR THE WEEK

- Y1 Computing T1 W10 Lesson Reference.pdf
- Student Book 1 printed pages 20-25
- Whiteboard and markers
- Prepared pictures or task cards
- Classroom computers or laptops
- Drawing paper or activity sheets
- Pencils and colouring materials; Student notebooks

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
