LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to follow and arrange a short sequence of instructions. They will also learn to open Scratch with support, locate key areas and save a project. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	4 January 2027	By the end of this lesson, students will be able to follow and arrange a short sequence of instructions.	**H:** Ask a pupil to explain how to reach a classroom object. **ID:** Explain that a program is a set of instructions. Order matters and unclear steps can cause the wrong result. **WD:** Follow a deliberately muddled two-step route and improve it together. **YD:** Pairs arrange three picture instructions and give them to a partner to follow safely. **C:** Ask pupils to identify the first step and explain one correction.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.
2	7 January 2027	By the end of this lesson, students will be able to open Scratch with support, locate key areas and save a project.	**H:** Show the Scratch editor and ask which part displays the project. **ID:** Introduce the stage, sprite pane, blocks and Code area. Teacher handles school-approved account access and never asks pupils to share passwords. **WD:** Open a project,	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.

			name it without personal details, save it and reopen it. Show a local backup if used at school. **YD:** Pupils locate the stage and sprite, change the project title and save or reopen it with adult support. **C:** Check that each pupil can find their saved work and point to the stage.

MATERIALS NEEDED FOR THE WEEK

- Y1 Computing T2 W01 Lesson Reference.pdf
- Student Book 1 printed pages 36-37
- Scratch 3 and school-approved saving arrangements
- Teacher-prepared book-equivalent project; preview controls before class
- Classroom computers or laptops
- Drawing paper or activity sheets
- Pencils and colouring materials; Student notebooks

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
