LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to identify the stage and sprite and start and stop a prepared Scratch program. They will also learn to change a backdrop and switch between normal and enlarged stage views. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	11 January 2027	By the end of this lesson, students will be able to identify the stage and sprite and start and stop a prepared Scratch program.	**H:** Show a still cat sprite and ask how we could make it move. **ID:** Use the Unit 3 introduction and pages 38-39. Explain that a program is a set of instructions and that this lesson uses a teacher-prepared project. **WD:** Open the prepared project, point to its blocks, sprite and stage, then demonstrate start and stop. **YD:** Pupils run and stop the prepared program, point to the sprite and stage and save a class-approved copy. **C:** Ask pupils to show what starts the program and describe what the sprite does.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.
2	14 January 2027	By the end of this lesson, students will be able to change a backdrop and switch between normal and enlarged stage views.	**H:** Ask how a different background could change the scene. **ID:** Use pages 40-41 to introduce the stage,	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing.

			viewing controls and backdrops. In Scratch 3, use Code rather than the older Scripts tab shown in the book. **WD:** Enlarge and restore the stage, then choose one backdrop while keeping the same sprite. **YD:** Pupils change the backdrop, try both views and reopen their saved project with support. **C:** Check that pupils distinguish the sprite from the backdrop and can restore the normal view.	**Extension:** Ask pupils to explain their choice and give another appropriate example.

MATERIALS NEEDED FOR THE WEEK

- Y1 Computing T2 W02 Lesson Reference.pdf
- Student Book 1 printed pages 36-41
- Scratch 3 and school-approved saving arrangements
- Teacher-prepared book-equivalent project; preview controls before class
- Classroom computers or laptops
- Drawing paper or activity sheets
- Pencils and colouring materials; Student notebooks

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
