## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will learn to identify inputs and outputs and control a prepared Scratch project. They will also learn to connect a green-flag event to a short sequence and run it. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

### End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

## LESSON SLOTS - MONDAY AND THURSDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| **1** | 1 February 2027 | By the end of this lesson, students will be able to identify inputs and outputs and control a prepared Scratch project. | **H:** Recall the input used in the Hedgehog Game.<br><br>**ID:** Use pages 50-51 to revisit the mouse, keyboard, screen and sound outputs.<br><br>**WD:** Demonstrate one action and ask pupils which part is input and which is output.<br><br>**YD:** Pupils complete the book check through drawing, pointing or oral responses, then demonstrate one control.<br><br>**C:** Record whether pupils distinguish a user action from the computer response. | **Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing.<br><br>**Extension:** Ask pupils to explain their choice and give another appropriate example. |
| **2** | 4 February 2027 | By the end of this lesson, students will be able to connect a green-flag event to a short sequence and run it. | **H:** Ask how a program knows when to begin.<br><br>**ID:** Use the Unit 4 introduction and pages 54-55. Explain that blocks join to form instructions and a green-flag event starts its attached stack.<br><br>**WD:** Model dragging and joining an event and a | **Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing.<br><br>**Extension:** Ask pupils to explain their choice and give another appropriate example. |

## MATERIALS NEEDED FOR THE WEEK

- Y1 Computing T2 W05 Lesson Reference.pdf
- Student Book 1 printed pages 50-55
- Scratch 3 and school-approved saving arrangements
- Teacher-prepared book-equivalent project; preview controls before class
- Classroom computers or laptops
- Drawing paper or activity sheets
- Pencils and colouring materials; Student notebooks

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
