LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to identify a sprite and compare starting a script with a flag or a sprite click. They will also learn to add or change a costume block and describe the visible result. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	1 March 2027	By the end of this lesson, students will be able to identify a sprite and compare starting a script with a flag or a sprite click.	**H:** Ask which picture on the stage can have its own code. **ID:** Use pages 56-57 to introduce sprites and the events when green flag clicked and when this sprite clicked. **WD:** Select the correct sprite and run a short script using each start event separately. **YD:** Pupils change a prepared start event, test both triggers and explain which action starts the sprite. **C:** Check that each pupil selects the intended sprite and demonstrates the correct trigger.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.
2	4 March 2027	By the end of this lesson, students will be able to add or change a costume block and describe the visible result.	**H:** Show two costumes of the same sprite and ask what is different. **ID:** Use pages 58-59 to introduce costumes as different looks of one sprite. Do not confuse a costume change with adding a different sprite.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.

			WD: Select a sprite with two costumes, add next costume to a short prepared script and run it. **YD:** Pupils add the supplied Looks block, test the change and describe the difference. **C:** Ask pupils to show the costume block and explain what changed on screen.

MATERIALS NEEDED FOR THE WEEK

- Y1 Computing T2 W09 Lesson Reference.pdf
- Student Book 1 printed pages 56-59
- Scratch 3 and school-approved saving arrangements
- Teacher-prepared book-equivalent project; preview controls before class
- Classroom computers or laptops
- Drawing paper or activity sheets
- Pencils and colouring materials; Student notebooks

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
