LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to add or duplicate a sprite and select the correct sprite before editing its code. They will also learn to find an event block by category and replace a prepared start event. Through class discussion, teacher demonstrations and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the specific outcomes in each lesson row and note pupils who need further practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	8 March 2027	By the end of this lesson, students will be able to add or duplicate a sprite and select the correct sprite before editing its code.	**H:** Show the Hedgehog Game and ask how many separate sprites it contains. **ID:** Use pages 60-61 to explain that an extra sprite can have its own scripts and position. **WD:** Duplicate or add a hedgehog, position it clearly and select each sprite to show which scripts belong to it. **YD:** Pupils add one extra sprite to a prepared project, keep it identifiable and test the game. **C:** Ask each pupil to select the added sprite and distinguish it from the original.	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.
2	11 March 2027	By the end of this lesson, students will be able to find an event block by category and replace a prepared start event.	**H:** Ask where new instructions are kept in the editor. **ID:** Use pages 62-63 to explain block categories and changing how a program starts. **WD:** Locate Events,	**Support:** Use pictures, adult reading and a paired demonstration. Accept pointing or an oral response before writing. **Extension:** Ask pupils to explain their choice and give another appropriate example.

			remove the old start block and attach the green-flag event to the prepared stack. **YD:** Pupils change one sprite's start event and test it. With support, they check whether another sprite also needs a start change. **C:** Ask pupils to show the category used and demonstrate the new trigger.

MATERIALS NEEDED FOR THE WEEK

- Y1 Computing T2 W10 Lesson Reference.pdf
- Student Book 1 printed pages 60-63
- Scratch 3 and school-approved saving arrangements
- Teacher-prepared book-equivalent project; preview controls before class
- Classroom computers or laptops
- Drawing paper or activity sheets
- Pencils and colouring materials; Student notebooks

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
