LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will demonstrate the knowledge and practical skills taught in network purposes, wired and wireless connections, device roles, internet services and responsible network use. The two lessons provide independent school assessment tasks and a practical opportunity to explain a choice.

End-of-Week Assessment/Check: How will you know they got it?

Assess the prepared knowledge and practical tasks against the taught outcomes. Record correct responses, independent actions, explanations and any agreed access support. Use the results to identify individual skills for follow-up.

LESSON SLOTS - WEDNESDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	14 October 2026	By the end of this lesson, students will be able to demonstrate the taught knowledge in a school assessment covering network purposes, wired and wireless connections, device roles, internet services and responsible network use.	**H:** Settle pupils and check that the prepared assessment and equipment are ready. **ID:** Explain the familiar task format and expectation to work independently; apply agreed school access arrangements. **WD:** Demonstrate only how to record an answer using an unrelated example. Do not rehearse assessed answers. **YD:** Pupils complete the prepared knowledge and scenario tasks. Record any assistance without teaching new content. **C:** Collect work and note the knowledge, practical or safety outcomes that need later follow-up.	**Support:** Apply the school's agreed access arrangements. Read task instructions without supplying answers and record adult assistance. **Extension:** Use an agreed independent explanation task after the core questions; do not introduce new content during assessment.
2	15 October 2026	By the end of this lesson, students will be able to apply the taught skills independently in a practical assessment of network purposes, wired	**H:** Check the prepared stations and remind pupils of the usual safe work routine. **ID:** Explain the success	**Support:** Apply the school's agreed access arrangements. Read task instructions without supplying answers and record adult assistance.

		and wireless connections, device roles, internet services and responsible network use.	criteria and how pupils can request technical help without receiving content answers. **WD:** Show how to open the task and record work using an unrelated example. Use only disposable practice files or teacher-approved pages. **YD:** Pupils label and explain a classroom network, trace a shared-resource request and justify a connection choice. Save or collect their work and record independent actions. **C:** Assess the results against the taught criteria and record individual skills for follow-up.	**Extension:** Use an agreed independent explanation task after the core questions; do not introduce new content during assessment.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 5 printed pages 4-19
- Teacher computer and display
- Classroom computers, the approved software and the class save folder
- Prepared school assessment tasks covering the taught outcomes
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- School access arrangements and the practical assessment checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
