LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to complete and improve a research fact sheet with checked sources and credits. They will also learn to apply search-engine, source-checking and crediting skills in a short learning check. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check relevant original writing, a verified fact, consistent headings and useful credits. Record each pupil's contribution. Record keyword choices, source reasoning, search-engine understanding and independent crediting. Identify review targets. Note pupils who need further guided practice.

LESSON SLOTS - WEDNESDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	18 November 2026	By the end of this lesson, students will be able to complete and improve a research fact sheet with checked sources and credits.	**H:** Revisit the team fact sheets and a short quality checklist. **ID:** Explain the improvement task: verify a claim, fill a source-credit gap and make the headings consistent. **WD:** Model improving an unrelated example using evidence from an approved page and a complete source credit. **YD:** Pupils finish their fact sheets, check a partner's source details and explain one reason for trusting the information used. **C:** Check relevant original writing, a verified fact, consistent headings and useful credits. Record each pupil's contribution.	**Support:** Provide approved page screenshots, a source checklist and a credit-writing frame. Use short texts and model one step before independent practice. **Extension:** Ask pupils to compare two source choices or queries, explain a limitation and improve the evidence or credit in their work.
2	19 November 2026	By the end of this lesson, students will be able to apply search-engine, source-checking and crediting skills in a short	**H:** Revisit crawler, index, query, result, advert, source and credit. **ID:** Explain the individual	**Support:** Provide approved page screenshots, a source checklist and a credit-writing frame. MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 5 printed pages 20-35
- Teacher computer and display
- Class computers with supervised browser access and the class save folder
- Approved web pages, search-result cards, an index model and fact-sheet template
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Source checklist, credit-writing frame and teacher-cleared image examples

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
