LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to apply Todorov's narrative stages to a film story, using accurate textbook terminology and a justified example. They will also learn to explain how narratives can depart from chronological order, using relevant evidence and clear explanations. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Teacher questioning, discussion, completed activities and the final checks in both lessons. Check accurate terminology, specific evidence and clear explanations of the weekly topics.

LESSON SLOTS - TUESDAY & FRIDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	8 September 2026	Lesson 1: Narrative structure and Todorov's stages By the end of this lesson, students will be able to apply Todorov's narrative stages to a film story.	**H:** Use a short example or retrieval question to activate prior knowledge of narrative structure and todorov's stages. **ID:** Teach equilibrium, disruption, recognition, attempt to repair and reinstatement of equilibrium. **WD:** Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. **YD:** Students map a familiar film onto the five stages; support each stage with a specific event. Require evidence and explanations, then check responses with a partner. **C:** Students distinguish disruption from recognition of disruption. Use responses to identify misconceptions.	**Support:** Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. **Extension:** Compare an alternative example or interpretation and justify how context changes the audience response.

2	11 September 2026	Lesson 2: Playing with narratives By the end of this lesson, students will be able to explain how narratives can depart from chronological order.	**H:** Use a short example or retrieval question to activate prior knowledge of playing with narratives. **ID:** Teach flashback, flashforward, twist and parallel narratives; how altered order affects knowledge and suspense. **WD:** Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. **YD:** Students rewrite or storyboard a short story using one narrative subversion; annotate its audience effect. Require evidence and explanations, then check responses with a partner. **C:** Students name the subversion and explain what the audience learns differently. Use responses to identify misconceptions.	**Support:** Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. **Extension:** Compare an alternative example or interpretation and justify how context changes the audience response.

MATERIALS NEEDED FOR THE WEEK

- GCSE Media Studies for AQA (Heinemann, 2004), printed pages 20-22
- Teacher computer, display and speakers
- Age-appropriate teacher-selected media examples and class save folder
- Relevant textbook activities, analysis sheets and production briefs
- Student notebooks and a teacher assessment checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
