LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to demonstrate their understanding of the taught topics through a mock assessment, using accurate textbook terminology and relevant evidence. They will also learn to use feedback to correct misconceptions and improve their responses. Through assessment practice, discussion and correction activities, students will strengthen these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Teacher questioning, discussion, completed activities and the final checks in both lessons. Check accurate terminology, specific evidence and clear explanations of the weekly topics.

LESSON SLOTS - TUESDAY & FRIDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	24 November 2026	Lesson 1: Mock assessment By the end of this lesson, students will be able to demonstrate understanding in a mock assessment.	**H:** Settle students, check materials and explain the assessment instructions. **ID:** Clarify timing and question requirements without providing answers. Scope: Film and Television content taught in Weeks 1 to 6 and 10 to 13; genre, narrative, audience, representation and promotion; television codes, genres and news. **WD:** Demonstrate how to read instructions and allocate time using a separate neutral example. **YD:** Students complete a timed practice paper with short analysis and application questions using unseen age-appropriate stimuli. **C:** Students identify one secure concept and one area requiring revision. Collect work and record completion.	**Support:** Apply agreed access arrangements and clarify instructions without supplying answers. **Extension:** Complete the same assessment independently; use remaining time to check evidence and explanations.

2	27 November 2026	Lesson 2: Feedback and corrections By the end of this lesson, students will be able to correct misconceptions using assessment feedback.	**H:** Use a short example or retrieval question to activate prior knowledge of feedback and corrections. **ID:** Teach accurate terminology, relevant evidence and explanation of audience effects; common misconceptions from the mock. **WD:** Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. **YD:** Students correct selected answers, explain the reason for each correction and apply the same skill to a new example. Require evidence and explanations, then check responses with a partner. **C:** Students complete a fresh question showing the corrected skill. Use responses to identify misconceptions.	**Support:** Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. **Extension:** Compare an alternative example or interpretation and justify how context changes the audience response.

MATERIALS NEEDED FOR THE WEEK

- Internal assessment materials covering Film and Television, Weeks 1-6 and 10-13
- Teacher computer, display and speakers
- Age-appropriate teacher-selected media examples and class save folder
- Relevant textbook activities, analysis sheets and production briefs
- Student notebooks and a teacher assessment checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
