LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to state the classroom rules and demonstrate safe, respectful computer use. They will also learn to follow computer-room routines and save, close and reopen a named file. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask each pupil to explain one rule and demonstrate how to ask for help. Check a useful filename, the correct location and a successfully reopened file. Record pupils needing guided practice. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	24 August 2026	By the end of this lesson, students will be able to state the classroom rules and demonstrate safe, respectful computer use.	**H:** Ask pupils which routines helped them learn in their previous computing lessons. **ID:** Explain the class rules: listen during demonstrations, care for equipment, respect other people and their work, and ask for help. **WD:** Model the help signal, a safe workstation and what to do when equipment or a screen seems wrong. **YD:** Pairs discuss classroom scenario cards, choose a helpful response and practise the correct routine at their workstation. **C:** Ask each pupil to explain one rule and demonstrate how to ask for help.	**Support:** Provide labelled device pictures, a file-and-folder diagram and a short step checklist. Use prepared practice files and allow a spoken explanation before writing. **Extension:** Ask pupils to compare two storage choices, explain a limitation and justify how their folder or version names prevent confusion.
2	27 August 2026	By the end of this lesson, students will be able to follow computer-room routines and save, close	**H:** Show an unnamed file and ask how someone could find it again next week.	**Support:** Provide labelled device pictures, a file-and-folder diagram and a short step checklist. Use prepared

		and reopen a named file.	**ID:** Explain careful equipment handling, school-managed access and the agreed class folder; adults handle plugs and cables. **WD:** Create a short greeting, save it with a useful name in the class folder, close it and reopen it. **YD:** Pupils create a short document, save it, reopen it and show a partner how they found it. **C:** Check a useful filename, the correct location and a successfully reopened file. Record pupils needing guided practice.	practice files and allow a spoken explanation before writing. **Extension:** Ask pupils to compare two storage choices, explain a limitation and justify how their folder or version names prevent confusion.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 4 printed pages 3-5
- Teacher computer and display
- Classroom computers, the approved software and the class save folder
- Prepared home and work device pictures, file and folder diagrams, and disposable practice files
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Prepared task checklist and teacher observation record

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
