## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will learn to organise practice files into named folders and find them again. They will also learn to choose a suitable storage location and verify a back-up copy. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

### End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check files are in the intended folders and pupils can reopen a requested file without searching unrelated pupils' work. Check the original remains available, the back-up opens and each pupil gives a task-based reason for the storage choice. Note pupils who need further guided practice.

## LESSON SLOTS - MONDAY AND THURSDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| 1 | 21 September 2026 | By the end of this lesson, students will be able to organise practice files into named folders and find them again. | **H:** Display a mixed collection of prepared pictures and documents.<br><br>**ID:** Explain a simple Computing folder with named subfolders. Names should help another person understand the contents.<br><br>**WD:** Create a Projects folder, move a practice document into it and trace the folder path back to the class work area.<br><br>**YD:** Pupils create an agreed folder structure, organise their own prepared files and ask a partner to find one by its name and location.<br><br>**C:** Check files are in the intended folders and pupils can reopen a requested file without searching unrelated pupils' work. | **Support:** Provide labelled device pictures, a file-and-folder diagram and a short step checklist. Use prepared practice files and allow a spoken explanation before writing.<br><br>**Extension:** Ask pupils to compare two storage choices, explain a limitation and justify how their folder or version names prevent confusion. |
| 2 | 24 September 2026 | By the end of this lesson, students will be able to choose a suitable | **H:** Ask how a pupil could continue work on another school computer. | **Support:** Provide labelled device pictures, a file-and-folder diagram and a short |

## MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 4 printed pages 12-17
- Teacher computer and display
- Classroom computers, the approved software and the class save folder
- Prepared home and work device pictures, file and folder diagrams, and disposable practice files
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Prepared task checklist and teacher observation record

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
