LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to complete a guided research task and bookmark a useful source. They will also learn to apply web vocabulary, search, bookmarking and safety skills in a short learning check. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check relevant keywords, a useful source, facts rather than copied paragraphs and a working bookmark. Ask for one reason the source is suitable. Record practical independence, keyword choices, source checks and safe reporting. Identify gaps to revisit during review. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	16 November 2026	By the end of this lesson, students will be able to complete a guided research task and bookmark a useful source.	**H:** Revisit the safe search, page-checking and bookmark checklist. **ID:** Explain the task: answer two prepared questions about an endangered animal, record a source and bookmark a useful page. **WD:** Model one unrelated search, show how to check a claim and record the source title and address using the approved method. **YD:** Pupils research their assigned animal using teacher-approved pages, write facts in their own words and reopen a bookmark. Use prepared offline pages where needed. **C:** Check relevant keywords, a useful source, facts rather than copied paragraphs and a working bookmark. Ask for one reason the source is suitable.	**Support:** Provide approved page screenshots, a vocabulary bank and a short search and safety checklist. Use a paired demonstration and prepared offline pages where needed. **Extension:** Ask pupils to justify a refined search or source choice, explain a limitation and compare two suitable ways to find the same information.

2	19 November 2026	By the end of this lesson, students will be able to apply web vocabulary, search, bookmarking and safety skills in a short learning check.	**H:** Revisit web page, browser, search engine, keyword, bookmark and trusted adult. **ID:** Explain that the check covers only the web skills already taught and practised. **WD:** Demonstrate the response format using an unrelated screenshot and a different research question. **YD:** Pupils label a screenshot, improve a safe query, find or bookmark an approved page and explain a safe response to an online concern. **C:** Record practical independence, keyword choices, source checks and safe reporting. Identify gaps to revisit during review.	**Support:** Provide approved page screenshots, a vocabulary bank and a short search and safety checklist. Use a paired demonstration and prepared offline pages where needed. **Extension:** Ask pupils to justify a refined search or source choice, explain a limitation and compare two suitable ways to find the same information.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 4 printed pages 20-35
- Teacher computer and display
- Class computers with supervised browser access and the class save folder
- Approved web pages, search and bookmark examples, or offline page cards
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Source-check checklist and fictional online safety scenarios

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
