LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to state the classroom rules and demonstrate safe, respectful computer use. They will also learn to handle equipment carefully and save, close and reopen a named file. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask each pupil to explain one rule and demonstrate the help signal. Check the correct folder, useful filename and reopened file; record pupils needing support. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	24 August 2026	By the end of this lesson, students will be able to state the classroom rules and demonstrate safe, respectful computer use.	**H:** Ask which routines helped pupils learn in last year's computing lessons. **ID:** Explain the class rules: listen during demonstrations, keep equipment safe, respect other people's work and ask for help. **WD:** Model a safe workstation, the help signal and how to respond when a device or screen seems wrong. **YD:** Pairs sort classroom scenarios into ready to learn or needs a better choice, then practise the correct routine. **C:** Ask each pupil to explain one rule and demonstrate the help signal.	**Support:** Use labelled device pictures, a vocabulary bank and a paired demonstration. Accept a spoken explanation before a short written response. **Extension:** Ask pupils to compare two suitable devices or job tasks and explain a benefit and a limitation of their choice.
2	27 August 2026	By the end of this lesson, students will be able to handle equipment carefully and save, close and reopen a named file.	**H:** Show two files with unclear names and ask which would be easiest to find later. **ID:** Explain that sensible filenames and the agreed	**Support:** Use labelled device pictures, a vocabulary bank and a paired demonstration. Accept a spoken explanation before a short written response.

			class folder help us find our own work; adults handle plugs and cables. **WD:** Create a small document, save it in the class folder with a useful name, close it and reopen it. **YD:** Pupils create a short greeting or drawing, save it, reopen it and show a partner where it is stored. **C:** Check the correct folder, useful filename and reopened file; record pupils needing support.	**Extension:** Ask pupils to compare two suitable devices or job tasks and explain a benefit and a limitation of their choice.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 3 printed pages 3
- Teacher computer and display
- Classroom computers, the approved software and the class save folder
- Prepared device pictures, job-and-task cards and labelled diagrams
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Prepared task checklist and teacher observation record

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
