LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to explain a benefit of using a computer for a specific task. They will also learn to choose suitable technology and identify a decision that needs human judgement. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check that pupils connect a benefit to the task and do not assume every computer result is correct. Ask pupils to justify one device choice and one task where a person must take responsibility. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	14 September 2026	By the end of this lesson, students will be able to explain a benefit of using a computer for a specific task.	**H:** Compare finding a fictional item in a long paper list with searching a prepared digital list. **ID:** Introduce benefits such as speed, accuracy, storage and communication, while explaining that incorrect input can still produce an incorrect result. **WD:** Complete one example linking a job task to a benefit, then contrast it with a vague claim that computers are always better. **YD:** Pupils match tasks to benefits and write or say a reason for two matches. **C:** Check that pupils connect a benefit to the task and do not assume every computer result is correct.	**Support:** Use labelled device pictures, a vocabulary bank and a paired demonstration. Accept a spoken explanation before a short written response. **Extension:** Ask pupils to compare two suitable devices or job tasks and explain a benefit and a limitation of their choice.
2	17 September 2026	By the end of this lesson, students will be able to choose suitable technology and identify a	**H:** Ask whether a computer can decide how a worried friend feels or what a person should	**Support:** Use labelled device pictures, a vocabulary bank and a paired demonstration. 		decision that needs human judgement.	choose. **ID:** Discuss the book's limits of computers. Distinguish giving information from taking responsibility for a decision. **WD:** Think aloud about choosing a laptop for longer writing and a portable device for a journey; include a situation where a person must listen or decide. **YD:** Pairs solve task cards by choosing a device or human help and give a reason based on features or limitations. **C:** Ask pupils to justify one device choice and one task where a person must take responsibility.	before a short written response. **Extension:** Ask pupils to compare two suitable devices or job tasks and explain a benefit and a limitation of their choice.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 3 printed pages 14-17
- Teacher computer and display
- Classroom computers, the approved software and the class save folder
- Prepared device pictures, job-and-task cards and labelled diagrams
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Prepared task checklist and teacher observation record

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
