## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will practise the taught knowledge and skills in digital devices, input and output, the processor, mobile-device features, computers at work, benefits and suitable choices. They will complete a mock assessment, review feedback and correct misunderstandings before assessment week.

### End-of-Week Assessment/Check: How will you know they got it?

Compare each pupil's mock responses with their corrected work and a similar follow-up task. Check that pupils can explain a correction and apply it independently. Record outcomes needing another guided example.

## LESSON SLOTS - MONDAY AND THURSDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| 1 | 5 October 2026 | By the end of this lesson, students will be able to complete a mock assessment and identify a practice target in digital devices, input and output, the processor, mobile-device features, computers at work, benefits and suitable choices. | **H:** Invite pupils to recall the recent unit using familiar device prompts.<br><br>**ID:** Explain that the mock is practice covering only the taught outcomes. It helps us decide what to review.<br><br>**WD:** Model the response format with an unrelated example, including how to give a useful reason.<br><br>**YD:** Pupils complete the prepared mock tasks independently, then identify one secure skill and one practice target.<br><br>**C:** Collect evidence and choose common gaps for the review lesson rather than moving to new content. | **Support:** Apply the school's agreed access arrangements. Read task instructions without supplying answers and record adult assistance.<br><br>**Extension:** Ask pupils to explain why their correction works and create a similar example for a partner. |
| 2 | 8 October 2026 | By the end of this lesson, students will be able to correct a misconception and apply a taught skill in digital devices, input and output, the processor, mobile-device features, computers at work, | **H:** Show an anonymous example from the mock and ask for a helpful improvement.<br><br>**ID:** Revisit the common gaps and explain the relevant idea with a fresh | **Support:** Apply the school's agreed access arrangements. ## MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 3 printed pages 4-19
- Teacher computer and display
- Classroom computers, the approved software and the class save folder
- Prepared mock assessment tasks covering the taught outcomes
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- School access arrangements and the practical assessment checklist

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
