LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to compose and send a clear practice email to an approved classroom recipient. They will also learn to open an expected email and write a relevant reply. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check the recipient, meaningful subject and clear message before the send step; record independent use of the sequence. Check pupils answer the original message and can explain why an unfamiliar message needs adult help. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	2 November 2026	By the end of this lesson, students will be able to compose and send a clear practice email to an approved classroom recipient.	**H:** Show a message with a missing subject and ask how to improve it. **ID:** Explain the recipient address, its local part and domain. Discuss why we check the address before sending. **WD:** Model a practice email: enter the approved recipient, subject, greeting, message and closing. Check it before sending. **YD:** Pupils draft and send an agreed classroom message in the managed system, or complete the same sequence with an offline email simulation. **C:** Check the recipient, meaningful subject and clear message before the send step; record independent use of the sequence.	**Support:** Provide a labelled email model, a short checklist and prepared non-personal files. Support reading and typing in the approved practice system or offline simulation. **Extension:** Ask pupils to improve the clarity of a message or explain why a realistic but unfamiliar message still needs adult checking.
2	5 November 2026	By the end of this lesson, students will be able to open an expected email	**H:** Display an inbox with one expected class message and one	**Support:** Provide a labelled email model, a short checklist and prepared non-personal

		and write a relevant reply.	unfamiliar sender card. **ID:** Explain inbox, unread messages and Reply. Only expected messages from approved classroom contacts are used for this practice. **WD:** Open a prepared class email, read its request, choose Reply and answer the question with a polite greeting and closing. **YD:** Pupils open an expected practice email and reply with a relevant sentence using the managed system or paper simulation. **C:** Check pupils answer the original message and can explain why an unfamiliar message needs adult help.	files. Support reading and typing in the approved practice system or offline simulation. **Extension:** Ask pupils to improve the clarity of a message or explain why a realistic but unfamiliar message still needs adult checking.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 3 printed pages 26-29
- Teacher computer and display
- Class computers with school-managed email practice or an offline simulation; prepared non-personal files
- School-managed email practice system and approved classroom recipients, or offline email forms and file cards
- Whiteboard and markers
- Student notebooks, pencils and prepared vocabulary prompts
- Fictional email examples and teacher-prepared non-personal attachment files

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
