LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to state the classroom rules and demonstrate safe, respectful computer use. They will also learn to follow computer-room routines and save and reopen a named file. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Ask each pupil to explain a rule and demonstrate the agreed help signal. Check the saved location, meaningful name, reopened content and safe shutdown routine. Note pupils who need further guided practice.

LESSON SLOTS - WEDNESDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	26 August 2026	By the end of this lesson, students will be able to state the classroom rules and demonstrate safe, respectful computer use.	**H:** Ask which routines helped pupils learn computing last year. **ID:** Introduce classroom expectations, listening signals, turn-taking and asking for help. **WD:** Model entering calmly, pausing keyboard use and explaining a pretend problem politely. **YD:** Pairs practise the routines and agree three rules with reasons. **C:** Ask each pupil to explain a rule and demonstrate the agreed help signal.	**Support:** Provide a visual routine checklist and a paired demonstration. Guide pupils to the class folder and let them explain a rule aloud. **Extension:** Ask pupils to improve a file name or suggest a helpful routine, explaining why it makes work easier to find or share.
2	27 August 2026	By the end of this lesson, students will be able to follow computer-room routines and save and reopen a named file.	**H:** Display two folders and ask which file would be easier to find later. **ID:** Review equipment care, school-managed access and meaningful file names. **WD:** Create a short document, save it in the class folder and reopen it	**Support:** Provide a visual routine checklist and a paired demonstration. Guide pupils to the class folder and let them explain a rule aloud. **Extension:** Ask pupils to improve a file name or suggest a helpful routine, explaining why it makes work easier to find or share.

			to check the contents. **YD:** Pupils create a computing goal, save and reopen the file, then leave their station tidy. **C:** Check the saved location, meaningful name, reopened content and safe shutdown routine.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 6 printed pages 3, 22-23
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Prepared robot pictures, labelled component diagrams and control-loop cards
- Whiteboard and markers
- Student notebooks, pencils and task sheets
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
