## LESSON OVERVIEW

### What should students know/do by the end of this week's lessons?

Students will learn to demonstrate respectful computer use and explain how to respond to an upsetting online situation. They will also learn to identify web-page components and plan a page using a labelled wireframe. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

### End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check a respectful helping action, a privacy rule and the correct route for reporting a concern. Ask pupils to explain where a reader finds information and how one component supports the page's purpose. Note pupils who need further guided practice.

## LESSON SLOTS - WEDNESDAY AND THURSDAY

| Lesson | Date | Learning Objective | The Lesson Flow | Differentiation |
|---|---|---|---|---|
| 1 | 28 October 2026 | By the end of this lesson, students will be able to demonstrate respectful computer use and explain how to respond to an upsetting online situation. | **H:** Ask how to help a classmate without taking over their keyboard.<br><br>**ID:** Introduce Unit 2 Make a web page. Review respectful sharing, equipment care, privacy and reporting concerns.<br><br>**WD:** Role-play explaining a folder task without touching another pupil's computer; show stop, close the screen and tell the teacher.<br><br>**YD:** Pairs practise helpful instructions and respond to fictional scenarios about sharing, unkind messages and upsetting content.<br><br>**C:** Check a respectful helping action, a privacy rule and the correct route for reporting a concern. | **Support:** Provide a simple wireframe, a school-managed starter and an approved image pack. Model one edit at a time and support saving and previewing.<br><br>**Extension:** Ask pupils to justify a layout choice or improve accessibility, then retest the saved site using the same checklist. |

## MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 6 printed pages 20-25
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Teacher-approved web editor, wireframe sheet and website review checklist
- Whiteboard and markers
- Approved image pack with permission details and source-credit records
- Prepared examples and the lesson success checklist

## END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
