LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to create a second page and link it to the home page with a working menu. They will also learn to review a small website and make an improvement supported by a checklist. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Observe both navigation paths in preview and check that the correct saved page opens each time. Check a completed checklist, a justified change and a successful retest of both menu links. Note pupils who need further guided practice.

LESSON SLOTS - WEDNESDAY AND THURSDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	11 November 2026	By the end of this lesson, students will be able to create a second page and link it to the home page with a working menu.	**H:** Ask how a visitor will reach a robot gallery from the home page. **ID:** Explain a website as related pages and distinguish editing a page from following a link in preview. **WD:** Create a named gallery page, add a heading and an approved image, then link both pages through a menu. **YD:** Pupils add a second page, use consistent names and test navigation from Home to Gallery and back. **C:** Observe both navigation paths in preview and check that the correct saved page opens each time.	**Support:** Provide a simple wireframe, a school-managed starter and an approved image pack. Model one edit at a time and support saving and previewing. **Extension:** Ask pupils to justify a layout choice or improve accessibility, then retest the saved site using the same checklist.
2	12 November 2026	By the end of this lesson, students will be able to review a small website and make an improvement supported by a checklist.	**H:** Show a broken link and a correctly spelt word used in the wrong context. **ID:** Review spelling, meaning, image credit,	**Support:** Provide a simple wireframe, a school-managed starter and an approved image pack. Model one edit at a time and support saving and previewing.

			readability, consistent design, privacy and working navigation. **WD:** Use a checklist to find one unclear sentence and one navigation fault, correct them and retest the preview. **YD:** Pairs review saved sites respectfully; each pupil makes and records an improvement to their own pages. **C:** Check a completed checklist, a justified change and a successful retest of both menu links.	**Extension:** Ask pupils to justify a layout choice or improve accessibility, then retest the saved site using the same checklist.

MATERIALS NEEDED FOR THE WEEK

- Oxford International Primary Computing Student Book 6 printed pages 30-33
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Teacher-approved web editor, wireframe sheet and website review checklist
- Whiteboard and markers
- Approved image pack with permission details and source-credit records
- Prepared examples and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
