LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Lesson 1: Narrative structure and Todorov's stages. Lesson 2: Playing with narratives. Students will apply Todorov's narrative stages to a film story and explain how narratives can depart from chronological order. Knowledge and application follow the weekly reference extract, printed pages 20-22.

End-of-Week Assessment/Check: Review the independent responses and both exit checks for accurate terminology, specific evidence and clear explanations. Record misconceptions for the next lesson.

LESSON SLOTS - TUESDAY AND FRIDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	8 September 2026	Lesson 1: Narrative structure and Todorov's stages By the end of this lesson, students will be able to apply Todorov's narrative stages to a film story.	H (5 min): Use a short example or retrieval question to activate prior knowledge of narrative structure and todorov's stages. ID (10 min): Teach equilibrium, disruption, recognition, attempt to repair and reinstatement of equilibrium. WD (10 min): Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. YD (15 min): Students map a familiar film onto the five stages; support each stage with a specific event. Require evidence and explanations, then check responses with a partner. C (5 min): Students distinguish disruption from recognition of disruption. Use responses to identify misconceptions.	Support: Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. Extension: Compare an alternative example or interpretation and justify how context changes the audience response.

2	11 Septemb er 2026	Lesson 2: Playing with narratives By the end of this lesson, students will be able to explain how narratives can depart from chronological order.	H (5 min): Use a short example or retrieval question to activate prior knowledge of playing with narratives. ID (10 min): Teach flashback, flashforward, twist and parallel narratives; how altered order affects knowledge and suspense. WD (10 min): Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. YD (15 min): Students rewrite or storyboard a short story using one narrative subversion; annotate its audience effect. Require evidence and explanations, then check responses with a partner. C (5 min): Students name the subversion and explain what the audience learns differently. Use responses to identify misconceptions.	Support: Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. Extension: Compare an alternative example or interpretation and justify how context changes the audience response.

MATERIALS NEEDED FOR THE WEEK

- GCSE Media Studies for AQA (Heinemann, 2004), printed pages 20-22; matching weekly reference PDF.
- Teacher computer, display screen and speakers where audio is used
- Age-appropriate teacher-selected extracts or teacher-prepared fictional media texts
- Prepared analysis worksheet, evidence grid or production brief
- Paper, pencils, storyboard or design templates, and whiteboard markers
- Classroom computers and save folders; camera or approved image bank when required
- Lesson success criteria and teacher observation checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
