LESSON SLOTS - TUESDAY AND FRIDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	29 September 2026	Lesson 1: Other ways to promote films By the end of this lesson, students will be able to evaluate film-promotion methods beyond posters.	H (5 min): Use a short example or retrieval question to activate prior knowledge of other ways to promote films. ID (10 min): Teach trailers, newswraps, articles, interviews, appearances, internet advertising and word of mouth; captive audiences. WD (10 min): Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. YD (15 min): Students compare a trailer with another promotional method; plan a small campaign for a fictional film and justify the methods. Require evidence and explanations, then check responses with a partner. C (5 min): Students explain how one method attracts interest without giving away the whole story. Use responses to identify misconceptions.	Support: Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. Extension: Compare an alternative example or interpretation and justify how context changes the audience response.

YD (15 min): Students map a film's route to an audience, then write an evidence-based response connecting two Film unit concepts. Require evidence and explanations, then check responses with a partner. C (5 min): Students distinguish distribution from exhibition and support one unit-summary claim. Use responses to identify misconceptions.	Support: Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work.
