LESSON SLOTS - TUESDAY AND FRIDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	24 Novembe r 2026	Lesson 1: Mock assessment By the end of this lesson, students will be able to demonstrate understanding in a mock assessment.	H (5 min): Settle students, check materials and explain the assessment instructions. ID (5 min): Clarify timing and question requirements without providing answers. Scope: Film and Television content taught in Weeks 1 to 6 and 10 to 13; genre, narrative, audience, representation and promotion; television codes, genres and news. WD (5 min): Demonstrate how to read instructions and allocate time using a separate neutral example. YD (25 min): Students complete a timed practice paper with short analysis and application questions using unseen age-appropriate stimuli. C (5 min): Students identify one secure concept and one area requiring revision. Collect work and record completion.	Support: Apply agreed access arrangements and clarify instructions without supplying answers. Extension: Complete the same assessment independently; use remaining time to check evidence and explanations.

2	27 November 2026	Lesson 2: Feedback and corrections By the end of this lesson, students will be able to correct misconceptions using assessment feedback.	H (5 min): Use a short example or retrieval question to activate prior knowledge of feedback and corrections. ID (10 min): Teach accurate terminology, relevant evidence and explanation of audience effects; common misconceptions from the mock. WD (10 min): Model one analysis or worked response. Identify a specific feature, explain its meaning and link it to audience or purpose. YD (15 min): Students correct selected answers, explain the reason for each correction and apply the same skill to a new example. Require evidence and explanations, then check responses with a partner. C (5 min): Students complete a fresh question showing the corrected skill. Use responses to identify misconceptions.	Support: Provide key vocabulary, a labelled example and a response frame. Break the task into steps and check understanding before independent work. Extension: Compare an alternative example or interpretation and justify how context changes the audience response.
