LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to explain e-learning and compare live, self-paced and blended learning examples. They will also learn to plan a small e-learning project and save a consistent title and contents structure. Through teacher demonstrations, discussion and practical activities, students will practise these skills and explain their ideas.

End-of-Week Assessment/Check: How will you know they got it?

Use teacher observation, pupil explanations and the completed practical or paper activity. Check an accurate definition and a balanced comparison including access, feedback and learner support. Check the plan, clear roles, consistent layout and a saved draft that each pupil can locate. Note pupils who need further guided practice.

LESSON SLOTS - MONDAY AND TUESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	2 November 2026	By the end of this lesson, students will be able to explain e-learning and compare live, self-paced and blended learning examples.	**H:** Compare a scheduled video lesson with a short lesson pupils can complete independently. **ID:** Explain digital learning through text, images, audio, video and interaction; it may be scheduled, self-paced, online or available offline. **WD:** Review a prepared mini-lesson, identify its learning goal and practice question and compare its access needs with a classroom lesson. **YD:** Pupils evaluate two examples and plan a small lesson with one goal, suitable media and a way to check understanding. **C:** Check an accurate definition and a balanced comparison including access, feedback and learner support.	**Support:** Provide a small approved source pack, a slide starter and a link-testing checklist. Break the task into content, layout, question and feedback steps. **Extension:** Ask pupils to improve an explanation, accessibility feature or feedback message, then retest it against the learning goal.
2	3	By the end of this lesson,	**H:** Show an example	**Support:** Provide a small

MATERIALS NEEDED FOR THE WEEK

- Oxford International Lower Secondary Computing Student Book 8 printed pages 42-49
- Teacher computer and display
- Classroom computers or laptops and the class save folder
- Teacher-approved research sources, a presentation starter and a link-testing checklist
- Whiteboard and markers
- Approved image pack with permission details and source-credit records
- Saved draft files, individual contribution records and the lesson success checklist

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
