LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Digital communication and device connections. Network types; data-transfer speed and volume.

End-of-Week Assessment/Check: How will you know they got it?
Check accurate terminology, explanations and application through the relevant book activities and questions. Record misconceptions and use the next feedback or consolidation session for corrections. Assess only content already taught.

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	16 November 2026	By the end of this lesson, students will be able to explain and apply digital communication and device connections, using accurate textbook terminology and a justified example.	**H:** Use a short scenario, image or retrieval question to introduce digital communication and device connections. ID: Teach digital communication and device connections from printed pages 66-72; include the relevant definitions, diagrams and examples. **WD:** Work through a textbook example or comparison for digital communication and device connections; explain each decision and check understanding. YD: Complete the relevant textbook activities and questions for digital communication and device connections. Use a practical demonstration or scenario where appropriate; finish remaining practice as homework. **C:** Explain one key idea about digital communication and device connections and	**Support:** Provide labelled diagrams, vocabulary, a structured response frame and a worked example. Apply agreed access arrangements during independent assessment without supplying answers. Extension: Justify an alternative solution, explain a limitation or apply the same concept to a new scenario using evidence.

			justify an answer; record misconceptions for the next lesson.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel International GCSE (9-1) ICT Student Book, printed pages 66-72
- Teacher computer and display
- School-approved applications, class save folder and fictional scenarios
- Relevant textbook diagrams, activities and chapter questions
- Student notebooks and a teacher assessment checklist
-
-

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
