LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to follow course expectations and workshop routines. They will also learn to explain how emerging technologies affect industry and enterprise. Product examples, teacher demonstrations and guided tasks will help them apply the ideas and explain their decisions.

End-of-Week Assessment/Check: How will you know they got it?

State two workshop rules and explain why each matters. Explain one industrial change and one way an enterprise can obtain funding. Review the completed work and final responses to identify misconceptions.

LESSON SLOTS - TUESDAY & WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	25 August 2026	By the end of this lesson, students will be able to follow course expectations and workshop routines.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Demonstrate equipment care, safe movement, reporting a problem and recording design work. Refer to printed book pages 7-8. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Create a course page and explain the correct response to workshop scenarios. Record the reasoning using appropriate vocabulary. **C:** State two workshop rules and explain why each matters.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

2	26 August 2026	By the end of this lesson, students will be able to explain how emerging technologies affect industry and enterprise.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Use the book examples to explain automation, CAM, enterprise and funding. Refer to printed book pages 7-8. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Compare a traditional production task with an automated approach; outline a product enterprise idea. Record the reasoning using appropriate vocabulary. **C:** Explain one industrial change and one way an enterprise can obtain funding.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel GCSE Design and Technology Revision Notes, printed pages 7-8
- Teacher computer and classroom display
- Relevant product images, material samples or teacher demonstration models
- Student notebooks, drawing equipment and task sheets

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
