LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to explain technological impacts on people, society and production. They will also learn to critically evaluate an emerging technology. Product examples, teacher demonstrations and guided tasks will help them apply the ideas and explain their decisions.

End-of-Week Assessment/Check: How will you know they got it?

Support an impact statement with a relevant example. Give a conclusion that recognises both a benefit and a limitation. Review the completed work and final responses to identify misconceptions.

LESSON SLOTS - TUESDAY & WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	01 September 2026	By the end of this lesson, students will be able to explain technological impacts on people, society and production.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Discuss sustainability, employment and production methods using textbook examples. Refer to printed book pages 9-13. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Compare benefits and drawbacks of a technology for workers, users and manufacturers. Record the reasoning using appropriate vocabulary. **C:** Support an impact statement with a relevant example.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

2	02 Septemb er 2026	By the end of this lesson, students will be able to critically evaluate an emerging technology.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Model a balanced evaluation using social, economic and environmental factors. Refer to printed book pages 9-13. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Evaluate a selected technology and justify a design decision using evidence. Record the reasoning using appropriate vocabulary. **C:** Give a conclusion that recognises both a benefit and a limitation.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel GCSE Design and Technology Revision Notes, printed pages 9-13
- Teacher computer and classroom display
- Relevant product images, material samples or teacher demonstration models
- Student notebooks, drawing equipment and task sheets

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
