LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to describe electronic systems using input, process and output. They will also learn to explain how programmable components control a system. Product examples, teacher demonstrations and guided tasks will help them apply the ideas and explain their decisions.

End-of-Week Assessment/Check: How will you know they got it?

Identify the input, processing decision and output. Explain how a changed input affects the programmed response. Review the completed work and final responses to identify misconceptions.

LESSON SLOTS - TUESDAY & WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	29 September 2026	By the end of this lesson, students will be able to describe electronic systems using input, process and output.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Model a system diagram and explain the role of each stage. Refer to printed book pages 23-25. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Draw and explain a system for a familiar controlled product. Record the reasoning using appropriate vocabulary. **C:** Identify the input, processing decision and output.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.
2	30	By the end of this lesson,	**H:** Use a short product	**Support:** Provide labelled

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel GCSE Design and Technology Revision Notes, printed pages 23-25
- Teacher computer and classroom display
- Relevant product images, material samples or teacher demonstration models
- Student notebooks, drawing equipment and task sheets

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
