LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to compare ferrous and non-ferrous metals and their uses. They will also learn to compare papers and boards for a purpose. Product examples, teacher demonstrations and guided tasks will help them apply the ideas and explain their decisions.

End-of-Week Assessment/Check: How will you know they got it?

Distinguish the metal families and explain a suitable use. Link the selected material to a required property. Review the completed work and final responses to identify misconceptions.

LESSON SLOTS - TUESDAY & WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	27 October 2026	By the end of this lesson, students will be able to compare ferrous and non-ferrous metals and their uses.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Use the textbook tables to compare metal properties and applications. Refer to printed book pages 26-29. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Select metals for two products and justify choices using properties. Record the reasoning using appropriate vocabulary. **C:** Distinguish the metal families and explain a suitable use.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

2	28 October 2026	By the end of this lesson, students will be able to compare papers and boards for a purpose.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Show samples or images and explain paper and board properties. Refer to printed book pages 26-29. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Compare suitable papers and boards for packaging and communication tasks. Record the reasoning using appropriate vocabulary. **C:** Link the selected material to a required property.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel GCSE Design and Technology Revision Notes, printed pages 26-29
- Teacher computer and classroom display
- Relevant product images, material samples or teacher demonstration models
- Student notebooks, drawing equipment and task sheets

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
