LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will learn to distinguish natural and manufactured timbers. They will also learn to select timbers using working properties. Product examples, teacher demonstrations and guided tasks will help them apply the ideas and explain their decisions.

End-of-Week Assessment/Check: How will you know they got it?

Explain one distinction between natural timber and manufactured board. Explain a benefit and a limitation of the selected timber. Review the completed work and final responses to identify misconceptions.

LESSON SLOTS - TUESDAY & WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	10 November 2026	By the end of this lesson, students will be able to distinguish natural and manufactured timbers.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Compare hardwoods, softwoods and manufactured boards using the textbook. Refer to printed book pages 34-37. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Classify timber examples and record their main characteristics. Record the reasoning using appropriate vocabulary. **C:** Explain one distinction between natural timber and manufactured board.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

2	11 November 2026	By the end of this lesson, students will be able to select timbers using working properties.	**H:** Use a short product example or question to introduce the topic and recall relevant knowledge. **ID:** Model a comparison of timber options for a defined product. Refer to printed book pages 34-37. **WD:** Complete a second example together. Ask students to explain their decisions and correct misconceptions. **YD:** Compare strength, durability and other relevant properties; justify a timber choice. Record the reasoning using appropriate vocabulary. **C:** Explain a benefit and a limitation of the selected timber.	**Support:** Provide labelled examples, a vocabulary guide and a structured comparison or diagram. Use prompts before independent work. **Extension:** Apply the concept to an unfamiliar product, justify an alternative and explain a trade-off.

MATERIALS NEEDED FOR THE WEEK

- Pearson Edexcel GCSE Design and Technology Revision Notes, printed pages 34-37
- Teacher computer and classroom display
- Relevant product images, material samples or teacher demonstration models
- Student notebooks, drawing equipment and task sheets

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
